The world's most admired
window coverings ————

Luxaflex®

Beauty is
in the Details

Luxaflex® has been adding style and sophistication
to New Zealand windows since the 1950's.

Our design heritage is founded on innovation for today
and tomorrow while taking care to celebrate the beauty
in the details. To us, form and function are synonymous.
Consistently pushing the boundaries, we are proud to be
the market-leaders in daylight regulation and solar heat
control solutions.

Pirouette® Shadings

Pirouette® Shadings

Luxaflex exclusive Pirouette Shadings feature three-dimensional fabric vanes that delicately float on a single sheer backing, to filter sunlight, adjust your view, and offer privacy. With Pirouette ClearView™ Shadings, you can enjoy the outdoor scenery while maintaining privacy, thanks to the specialised sheer fabric with unparalleled view-through technology.

Optical Illusion

The revolutionary Invisi-Lift System suspends the shadings' soft vanes for variable light control, allowing the vanes to be fully raised and lowered without obstructing the view. Available in 100mm and 120mm vane sizes.

Flexible Light Control

Elegantly open the fabric vanes to any position and allow daylight to diffuse through the sheer, filtering UV and reducing glare for an enhanced view through. For increased privacy, the contoured fabric vanes can be flattened and closed.

Scenic Immersion

Pirouette ClearView™ Shadings offers an unobstructed view through your windows, immersing you in the natural beauty of your surroundings. Let the lush greenery, the vibrant colors of the sunset, or the mesmerizing cityscape captivate your senses and enrich your daily life.

Perfectly Paired

Complement your Pirouette-focused room fit-out with other types of window shadings that match their style perfectly. Silhouette® Shadings and Luminette® Privacy Sheers pair with Pirouette® flawlessly.

Opacity Options

Light Filtering Translucent
Translucent fabrics deliver privacy and a soft diffused glow.

Room Darkening — Open
Room darkening fabrics provide privacy and view through without darkness when open.

Room Darkening — Closed
The vanes can be closed on room darkening fabrics to achieve increased privacy and room darkness but not full blockout.

Operating Systems

UltraGlide® Operating Wand
Ergonomically designed, this retractable wand system controls vane adjustment and the raising of shades by pulling the wand straight down with short strokes. To lower the shading, pull the wand out toward the room and with one click, the shading will release.

EasyRise Operating Systems
A child safe option featuring a continous cord loop with a mounted cord tensioner. To lower your shades or tilt the vanes, pull down on the rear of the cord loop, to raise your shades pull on the front.

PowerView® Motorisation
Take control and operate your shades with the touch of a button using the stylish Pebble® Remote Control, smartphone or tablet device (via the PowerView App), or with voice command using Google Home™, Apple® HomeKit® or Amazon Alexa. Integrate PowerView with your existing home automation systems to create a whole-home connected experience.

Luminette® Privacy Sheers

Experience the best of both worlds with Luminette Privacy Sheers – a window covering that combines the timeless beauty of sheer curtains with the superior control of blinds. This inspired and elegant alternative to traditional curtains is a patented and exclusive product, part of the stunning Softshades collection that will transform any space into a sophisticated haven.

2-in-1 Design	Featuring a softly curved vertical design for a striking interior statement, Luminette Privacy Sheers integrates the functionality of two blinds into one. Effortlessly rotate the fabric vanes for variable light control, angling sunlight into the room. Close the vanes completely to provide privacy and room darkening.
Wide Applications	Luminette Privacy Sheers utilise classic 89mm vanes for understated elegance. Ideal for expansive windows and sliding doors, they can be neatly stacked to the side, providing an unobstructed view and instant access to sliding doors.
Filter Out Glare	Allow daylight to softly diffuse through the sheer when opened. The sheer fabric facing evenly spreads light throughout the room, minimising the need for artificial light and providing daytime privacy.
Cleverly Engineered	Concealed in the slimline headrail is the exclusive Softrak® Scissor Hardware System, providing smooth, reliable and whisper-quiet operation and 180 degree rotation. The vertical fabric vanes create a self-pelmet for a sleek and refined finish.

Fabric Options

Translucent
A low maintenance solution, Translucent 100% anti-static fabric naturally repels dust and dirt while diffusing light to provide a soft glow. When the vanes are open, the view is still visible.

Room Darkening
When room darkening fabric is selected for Luminette® Privacy Sheers, the vanes can be closed to achieve complete privacy. Room darkening fabric is also 100% anti-static, repelling dust and dirt.
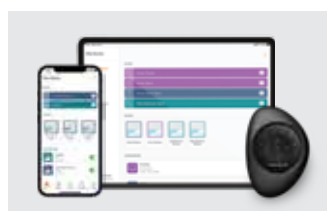

Operating Systems

Combination Wand/Cord
Combining the tilt and traverse function into one control, the Combination Wand/Cord system makes opening, closing and rotating your fabric vanes quick, easy and child safe. Simply pull cord to draw the sheers across to provide an unobstructed view, or twist the wand to rotate fabric vanes.

Travelling Wand
Perfect for sliding glass doors, the Travelling Wand system is a simple solution for easy, one-handed access. Simply push or pull the wand to traverse shade, or twist the wand to rotate the fabric vanes. Eliminating the need for looped pull cords, the Traverse Wand system provides a safer home environment for children and pets.

PowerView® Motorisation
Take control and operate your shades with the touch of a button using the stylish Pebble® Remote Control, smartphone or tablet device (via the PowerView App), or with voice command using Google Home™, Apple® HomeKit® or Amazon Alexa. Integrate PowerView with your existing home automation systems to create a whole-home connected experience.

Silhouette® Shadings

Experience the perfect balance of elegance and function with Silhouette Shadings. The signature S-shaped vanes add a touch of sophistication to any room while transforming harsh sunlight into a soft, diffused glow. This unique shading solution provides limitless design options, with a range of gorgeous fabrics to choose from.

Distinctive Design	Cleverly engineered, Silhouette Shadings feature soft S-shaped vanes between two sheer fabric panels, creating an elegant appearance of floating vanes. The vanes diffuse the light into your room and can be tilted to block the outside world's view. The unique design bounces incoming light up onto the ceiling, naturally brightening the room.
Vane Size	The 50mm size provides a classic, understated look. The 65mm and 75mm sizes make a bolder design statement and add drama to any window.
Heat Reflection	Featuring white sheer fabric backing for superior solar reflection, reducing heat gain and providing a consistent neutral home exterior appearance.
Superior UV Protection	The sheers softly filter light protecting flooring and furnishings from harsh UV rays. Simply tilt the vanes to achieve your desired level of light. Open the vanes for light diffusion and daytime privacy whilst maintaining a view through your window. Adjust the vanes for greater light deflection and privacy. Close the vanes for complete privacy and UV protection.

Fabric Options

Translucent
Silhouette Shadings
made with translucent fabric
diffuse light to provide a soft glow.
When the vanes are open, the view
is still visible.

Room Darkening
When room darkening fabric is
selected for Silhouette Shadings,
the vanes can be closed to achieve
complete privacy without total
blockout.

Operating Systems

EasyRise Cord Loop
A child safe option featuring
a continous cord loop with a
mounted cord tensioner. To lower
your shades or tilt the vanes, pull
down on the rear of the cord loop,
to raise your shades pull on the
front.

UltraGlide® Operating Wand
Ergonomically designed, this
retractable wand system controls
vane adjustment and the raising
of shades by pulling the wand
straight down with short strokes.
To lower the shading, pull the wand
out toward the room and with one
click, the shading will release.

PowerView® Motorisation
Take control and operate your
shades with the touch of a button
using the stylish Pebble® Remote
Control, smartphone or tablet
device (via the PowerView App), or
with voice command using Google
Home™, Apple® HomeKit® or
Amazon Alexa. Integrate PowerView
with your existing home automation
systems to create a whole-home
connected experience.
